Executive Summary

The **goal** was to detect patterns and anomalies regarding access to Codeup's curriculum logs.

Top Data Science Lessons	Top Web Dev. Lessons
SQL *	Javascript-I *
Classification *	CSS
Fundamentals	Spring *

*commonly accessed after graduation

Strange Anomalies:

- 272 pages accessed in a single night
- Variety of subjects within seconds
- Use of multiple IP addresses.

Least Accessed Lessons:

There's a 400+ way tie, some examples:

- Conditionals
- Editing with Vim
- Modeling
- Spreadsheets Overview

Students With Low Access Rates:

- Usually stopped utilizing curriculum within 3 days of the start date

- Half had not graduated by 04/21/2021

- More common in the Web Development program
